MOAMEN ELSHARKAWY

AI AUTOMATION ENGINEER | FRACTIONAL CHIEF AI OFFICER

Cairo, Egypt | +20 100 097 7841 | contact@moamen-ai.com

LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

AI Automation Engineer and part-time Chief AI Officer designing n8n workflows, AI agents, CRM integrations and business operating systems. Delivered Arabic lead automation for a physiotherapy clinic and an Egyptian-Arabic AIOS with CRM for a Cairo real-estate brokerage. Lead AI planning and implementation across two part-time leadership roles. Focus: reliable automation, integrations, human approval and technical delivery.

TECHNICAL SKILLS

AI Automation: n8n, REST APIs, webhooks, CRM routing, error recovery, idempotency, audit logs

Agentic AI: tool calling, RAG, vector databases, structured output, LLM evaluation, human-in-the-loop

Engineering: Python, TypeScript, FastAPI, PostgreSQL, Supabase, FAISS, Git, Docker

Tools & Platforms: OpenAI, Claude, OpenRouter, Telegram, WhatsApp Cloud API, Google Workspace, Notion/MCP, Odoo

PROFESSIONAL EXPERIENCE

Chief AI Officer (Part-time) | Home Locator | Aug 2026 - Present

- Own AI roadmap, technology priorities, company website and CRM development for brokerage operations.
- Lead work on lead intake, customer records, activity history and sales-agent workflows.

Chief AI Officer (Part-time) | Real Experts | Jul 2026 - Present

- Set AI strategy and coordinate technical priorities and delivery for real-estate business systems.
- Lead CRM, lead qualification, routing and pipeline automation architecture.

AI Automation Engineer | Sparkling for Business LLC | May 2026 - Present

- Develop and validate n8n workflows, LLM agents and integrations with practical error-handling and approval patterns.
- Built 13 validated instructional workflows: nine office-hours demos and four core course builds.

Instructor & Program Lead | Bonyan Academy | Aug 2025 - Apr 2026

- Led applied AI/programming instruction and helped coordinate instructors.

Full-Stack Development Intern | NTG Clarity | Jul - Sep 2025

- Built a Spring Boot/Angular e-learning application with secured REST APIs.

SELECTED IMPLEMENTATIONS AND VERIFIED EVIDENCE

Egyptian-Arabic AIOS & CRM | CLIENT DELIVERED / IN USE | Details

- Delivered eight-layer operating-system governance plus a CRM application to an anonymized Cairo brokerage; outcome metrics not published.

LeadSync AI | CLIENT DEPLOYED | Details

- Delivered Egyptian-Arabic Telegram lead capture, qualification and follow-up with management dashboard for a Cairo physiotherapy clinic.

AI Video Post-Production | CLIENT PROJECT | Details

- Automated transcription, AI-assisted edit decisions and RTL Arabic captions; removed 42% dead air from a real ed-tech client clip.

Transcript Translator | PAID CLIENT DELIVERY | Details

- Delivered DOCX-to-Arabic transcript translation with timestamps preserved via Telegram and Google Drive.

Lead Intelligence Pipeline | TESTED REFERENCE | Details

- Built 11 n8n/Odoo workflows with explainable scoring, AI classification, routing, idempotency and dead-letter replay. Verified 15/15 required edge cases, 158 unit assertions and 32 hardening checks; workflows later deactivated.

Inbox: Shared WhatsApp Team Inbox | TESTED PRODUCT | Details

- Built a FastAPI, PostgreSQL and React shared inbox with exclusive ownership claims; 261 passing tests and 48/48 smoke checks. Verified using a simulated provider, not live client traffic.

Sawt: Egyptian-Arabic Voice Agent | DEPLOYED SHOWCASE | Details

- Three n8n workflows integrating Telegram voice, Groq Whisper, ElevenLabs and productivity tools with confirmation gates; presented at n8n Cairo Meetup #2.

Agentic Instagram Marketing | DRY-RUN REFERENCE | Details

- Seven workflows with bilingual generation, cross-model judge and human review; eight test batches / 56 posts. Live Instagram publishing was not connected.

Contact Intelligence Pipeline | PARTNER PROJECT | Details

- Deduplicated 12,866 contacts from overlapping exports and tiered 7,777 Hot/Warm leads using Python and Arabic-aware normalization.

EDUCATION AND COMMUNITY

B.Sc., AI & Data Science | Zewail City of Science, Technology and Innovation | Expected 2027

Graduation project: Chest X-ray medical AI research and web application integrating six models, FastAPI, Angular and MongoDB.

Speaker: n8n Cairo Meetup #2, Sawt Egyptian-Arabic voice-agent showcase (July 2026).
